Aqualung is synonymous with the scuba regulator as we invented it. And we continue to lead the way with the best underwater breathing devices available today. Every aspect of our technology is aimed at both performance and comfort.

Experience the best breathing system today from Aqualung.

A full-page underwater photograph of a diver. The diver is wearing a grey and black wetsuit with the Aqualung logo on the chest. They are holding a black Aqualung regulator in their right hand, with bubbles rising from it. The diver is also wearing a diving mask and has a ring on their finger. The background is a sandy ocean floor with blue water above.

Regulators®

Our Regulator Technologies.

1st Stage

ACD **AUTO CLOSURE DEVICE**
The ACD keeps the inlet shut to protect internal parts from debris and corrosive water when not connected to a cylinder valve. It helps to maintain oxygen compatibility, preserve internal lubrication, and keep the inlet filter clean and dry. This extends the life of the first stage between services.

DE-ICE
Deep ribs create a large heat exchange surface area, helping to prevent ice from forming on the mechanism. The overmolded cap delays ice formation over the external diaphragm.

PERMANENT DRY CHAMBER
Where there's no moisture, there's no ice. The Permanent Dry Chamber keeps internal parts clean and dry by isolating them from the outside environment. This enhances overall freeze resistance of the regulator when diving in cold water.

OVER BALANCED MECHANISM
Also known as Auto-Balanced, the Over-Balanced Mechanism overcompensates the interstage pressure to reduce your breathing effort. Regardless of depth or tank pressure, it provides effortless breathing from the beginning to the end of your dive.

DUST CAP PROTECTION
Attached to the regulator body, the Dust Cap protects the inlet fitting and the Auto Closure Device from impacts and damage. It also seals the 1st stage when it's off the tank.

BLUE HIGH PRESSURE SEAT
It is the core of the 1st stage. The Blue High Pressure Seat opens and closes with every breath, forming a perfect seal with durable materials that work in all conditions and with all gasses. The working pressure of the 1st stage is automatically elevated to counteract the increased breathing air density.

2nd Stage

COVER OPENING CHANNELS
The Front Cover Opening Channels allow water to flow sideways over the diaphragm. The wide radial openings prevent freeflows when diving in strong currents and reduces cracking effort by 20%.

MASTER BREATHING SYSTEM
Integrated control of the Venturi effect and inhalation effort means one adjustment completes both tasks simultaneously.

INTERCHANGEABLE MOUTH PIECE
The detachable and reusable mouthpiece clamp allows for quick and simple tool-free change, avoiding plastic waste.

COMFOBITE
A patented and comfortable mouthpiece featuring a unique palate bridge reduces jaw fatigue and securely holds the 2nd stage in place. Made from hypoallergenic silicone, the orthodontic mouthpiece is both soft and sturdy.

AIR CHANNEL DEFLECTOR
Streamlined bi-material component directs the air flow evenly through the 2nd stage and lowers exhalation effort.

Leg3nd Elite

The **Leg3nd Elite** has been crafted for diving in challenging and extreme environments. This high-performance regulator offers exceptional breathing comfort and superior performance in any dive condition.

Advanced divers will appreciate its independent micro-adjustments of the breathing resistance, which allow them to fine-tune it to their individual breathing requirements. This aesthetic masterpiece made with stainless-steel parts offers intuitive ergonomics right at your fingertips.

All depths, all conditions, all dives.

AQUALUNG

Leg3nd / Leg3nd Partner

When performance is your highest priority, Leg3nd is the answer. The **Leg3nd** shares the same breathing characteristics with the Leg3nd Elite and Leg3nd MBS. The familiar venturi switch now features an updated and ergonomic design. Overmolded with “soft touch” elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow.

Helix Compact Pro

You don't need to be big to make a big impact. That thinking inspired the **Helix Compact Pro** the smallest and most compact regulator Aqualung has ever produced. This amazing piece of technology is equally designed for warm and cold water, meaning it's perfect for jetsetters on the go, minimalists packing light, and even local divers who simply want unequalled performance per ounce.

Designed and made in France.

The sale of maintenance kits is reserved for professionals identified by Aqualung. The sale of maintenance kits to untrained and unqualified individuals is prohibited.

Decades of design innovations and technological advancements means Aqualung has perfected the buoyancy compensator, exceeding the needs and expectations for all levels of divers.

We've dialed in buoyancy control with our exclusive i3+ inflation/deflation mechanism.

We've created customization options galore with our unique ModLock system. And as the world transforms, we will continue to revolutionize jacket, back-inflated, and hybrid styles of BCDs.

A close-up photograph of the i3+ inflation/deflation mechanism on a black BCD. The mechanism features a prominent yellow lever with a serrated edge and a yellow dial with white markings. Above the lever, the text 'i3+' is printed in yellow. A silver-colored metal fitting is visible on the right side of the mechanism. The background is dark and textured.

BCD's®

Our BCD Technologies.

WRAPTURE HARNESS

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible “click” and quickly remove them with one smooth pull.

MODLOCK

This unique connector system creates easily interchangeable size and accessory configuration for a personalized dive.

GRIP LOCK TANK BAND

Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.

BLADDER RETRACTION SYSTEM

Stretch webbing pulls in BCD bladder sides when deflated to eliminate drag and help streamline your profile, reducing your effort and lowering air consumption.

i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

MODLOCK System

Aqualung's patent-pending **Modlock** connectors revolutionize the way we look at BCDs. Thanks to a round clipping design and 27 size configurations, the Modlock allows you to fully customize you BC for the perfect fit and needed accessories. Beyond picking our base components such as the back pad, the waistbands, and the shoulders straps

available in 3 sizes, you can add up a range of optional accessories such as different sized trim pockets or an SMB holder. Unlock each component in a matter of seconds to reduce volume for transportation or adapt your configuration before going diving. You won't need a special tool to do it, a simple pen or key works.

MEASURING POINTS FOR WAIST SIZE
Men are measured at waistline, rather than normal beltline

MEASURING POINTS FOR OTS LENGTH

Axiom i3+ Men

Power. Performance. Peace of mind. That's the **Axiom i3+** Men's BCD. The incorporated exclusive i3+ inflation/deflation system means perfecting your buoyancy has never been so easy. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Focus on the important part of diving—enjoying it—with the **Axiom i3+**.

Technical Features

WRAPTURE HARNESS
An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

i3+
Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

SURE LOCK II
Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

SWEVELING BUCKLES
As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

-  **BLADDER RETRACTIONS SYSTEM**

Axiom i3+ Women

Simply the best women's BCD out there. The **Axiom i3+** for women offers our exclusive incorporated i3+ inflation/deflation system for perfecting buoyancy control. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. The women's cut has a shortened design with scalloped sides in order to take pressure off the hips and fits the shorter torsos of females. Experience the ultimate BCD for women's diving.

Rogue

Created for the accomplished diver who knows exactly what gear they want, the **Rogue** BCD strikes the perfect combination of personalization and minimal design. Utilizing Aqualung's innovative ModLock connectors, the Rogue allows divers to dive their way thanks to the easily interchangeable size and accessory configurations. This back-inflation BCD ensures your comfort and freedom underwater, allowing you to create your perfect fit with interchangeable back, waist, and shoulder pieces. When it comes to your gear, make every dive personal. Your Dive. Your Way.

Technical Features

- **PATENTED SURELOCK II WEIGHT SYSTEM** allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- Gear Up! Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.
- Backpack Handle Easy to carry: proprietary backpack has built-in handle.
- Configurable Some divers may prefer to run their instruments behind the left pocket and out the scooped opening on top, in front of the lobe.

Pro HD Women

Strong. Sleek. Secure. The **Pro HD Women** is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

	XS	SM	MD	ML
■	707018 BKPKXS	707018 BKPKS	707018 BKPKM	707018 BKPKML

Technical Features

- **HYBRID JACKET ADV-STYLE** jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- **PATENTED SURELOCK II WEIGHT SYSTEM** allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- **OCTO POCKETS** Two octo-pocket locations for versatility: right lobe and top of front lobe.
- Gear Up! Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

Pro HD Compact

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

	XXS/XS	SM/MD	MD/ML	XL/XXL
■	707019 KORXXXSXS	707019 KORSM	707019 KORMLL	707019 KORXLXXL

Technical Features

- Innovative tank support system eliminates the need for a hard pack.
- **PATENTED SURELOCK II WEIGHT SYSTEM** allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- Great packability – flat or rolled.

Dimension

Our high standards put the **Dimension** far above the standards in back inflation-style BCDs. This BCD incorporates our Wrapture harness system and SureLock II mechanical weight release system, and is made of specially developed ResisteK material to stand up to the most rugged conditions in salt or chlorinated water without fading or abrasion.

	SM	MD	ML	LG	XL

Dive instruments from Aqualung are "Complex Made Easy."

From our innovative TFT and IPS screens to our simple magnetic charging connection and advanced Bluetooth 5.0, today's divers have convenient, easy to use technologies and connectivity at their fingertips.

Discover a whole new world on your next adventure with the reliability and functionality of computers and instruments from Aqualung.

instruments®

THE AQUALUNG DIFFERENCE

Aqualung controls all **aspects of design**, development and manufacturing of our dive instrumentation. We do this to ensure we have high **quality products** that our divers can rely on. Because of this commitment, you will find this **Aqualung Difference** throughout our product line.

Our Instrument Technologies.

BT 5.0
Bluetooth with twice the data transfer speed (2 Mbps) for uninterrupted connection and four times the communication distance as compared to Bluetooth 4.2.

MAGNETIC CHARGING CONNECTION
Power your dive computer in a snap with Aqualung's magnetic charging cable.

TFT
TFT (thin-film transistor) technology offers smooth screen changes for an uninterrupted view of your data along with increased energy efficiency when compared to a regular LCD display.

IPS
IPS ("In-Plane Switching") screens provide better visuals with richer colors and accurate viewing from all angles, even in direct sunlight.

NATO STRAP
This unique strap design doubles back to create a full loop. A simple buckle closure helps the computer stay centered and fastened on your wrist.

DIVERLOG+ APP

Staying connected and managing your dives has never been simpler! Wireless Bluetooth Smart connectivity lets you wirelessly sync your dive data with the DiverLog+ app on your mobile device (available for iOS and Android). With your DiverLog+ app, you can remotely control all your dive computer settings, view dive log and profile data, add locations, notes and other details from your adventures. After your dive, share your memories, stats, photos, and dive site locations on social media.

* Our technology ensures that once set, your transmitter is permanently paired to your computer.

* To ensure accuracy and reliability in our analog collection, Aqualung goes well above the industry standard in utilizing the highest-quality Swiss-manufactured Bourdon tubes.

i770R

The results are in and the first-of-its-kind **i770R** is the clear choice for the refined diver who wants it all. Anything you aspire to achieve—from open water to recreational tech diving—this computer is there for you. Constructed with the most important features in mind, the **i770R** offers intuitive design for effortless usage, allowing you to focus on the dive. Bluetooth with faster data transfer and a solid connection on a low energy protocol.

- 704025 BKGR I770R WITH TRANSMITTER
- 704024 PEWH I770R COMPUTER W/USB

Technical Features

-  **NATO STRAP**
This unique strap design doubles back to create a full loop. A simple buckle closure helps the computer stay centered and fastened on your wrist.
-  **BT 4.0**
Bluetooth with faster data transfer and a solid connection on a low energy protocol.
-  **TFT**
TFT (thin-film transistor) technology offers smooth screen changes for an uninterrupted view of your data along with increased energy efficiency when compared to a regular LCD display.

i330R

Experience exciting new adventures and make incredible underwater discoveries with the **i330** dive computer. Intuitive, user-friendly and easy to understand, the clear, vivid display gives you all the information you need to stay safe and within your limits. Charge simply and quickly with convenient magnetic connection and sync data between your computer and mobile device with fast Bluetooth connectivity. An indispensable companion, the **i330R** provides all the information to keep you safe on your thrilling underwater adventures.

i300C

704011	I300C COMPUTER, WRIST
704012	I300C DC, 2-GAUGE

The **i300C**'s uncomplicated, intuitive, and rugged design lets you focus on your dive, not your gear. With an easy-to-use interface, flexible operating modes, built-in backlight and water-activated on switch, the **i300C** gets you in the water and descending to your next adventure in no time. This durable, versatile and affordable dive computer is great for new and experienced divers alike.

Technical Features

- High-visibility LED warning light.
- User-Changeable Battery.
- 4 operating modes.
- Bluetooth 4.0.

i100

New divers, this one's for you: entry-level pricing, essential functionality, and simple, one-button navigation. Select from four operating modes and manage two gases. The **i100** also retains all your settings and calculations during battery changes. Stay safe with audible alarms and a high-visibility LED warning light.

704023 BKYL	I100 COMPUTER
704023 BKBL	I100 COMPUTER

Technical Features

- High-visibility LED warning light.
- User-Changeable Battery.
- 4 operating modes.
- Two Gases.

AL50 Pressure Gauge

The Aqualung **AL50 Pressure Gauge** delivers air pressure on a 50mm diameter easy-to-read display graduated from 0 to 360 bar. The metal casing and the elastomer protection make it particularly resistant.

704026	SPG AL50 AIR HOSE 80 CM
--------	-------------------------

Technical Features

- Easy-to-read scale up to 5, PSI / 35 bar rated.
- Shock resistant Bourdon tube.
- Available in green nitrox/oxygen (EN 13949:2003) versions.
- Hose length is 80cm & 18cm.
- Rated working pressure 300 bar.

Pressure Gauge

The Aqualung **Pressure Gauge** delivers both remaining air pressure and temperature in one easy-to-read display.

704005 US	PRESSURE GAUGE ASSY
704005 IN	PRESSURE GAUGE ASSY
704001 US	PRESSURE GAUGE MODULE
704001 IN	PRESSURE GAUGE MODULE

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

2 Gauge Console Pressure & Compass

Our **2-gauge** console includes a **Pressure Gauge** and a **Compass**. Designed with ease-of-use and simplicity in mind, the pressure and direction displays are designed with such features as a luminescent gauge face for easy reading in low light.

704038 US	PRESSURE GAUGE W/CMP NH
704038 IN	PRESSURE GAUGE W/CMP NH

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

2 Gauge Console Pressure & Depth

Our **2-gauge** console includes a **Pressure Gauge**, **Depth Gauge** and Writing Slate. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light. In addition, the 2-gauge console can be easily upgraded in the future with the addition of a Compass.

704003 US	CONSOLE 2 GAUGE
704003 IN	CONSOLE 2 GAUGE

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

3 Gauge Console Pressure & Depth & Compass

Our **3-gauge** console includes a **Pressure Gauge**, **Depth Gauge** and **Compass**. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light.

704004 IN	CONSOLE 3 GAUGE
-----------	-----------------

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

Compass

Designed with readability in mind, Aqualung's **Compass** is perfect for navigation under any conditions.

704002 NO	COMPASS MODULE
704006 NO	COMPASS WRIST

Technical Features

- Large easy to read numbers.
 - Large side view window allows for easy and accurate navigation.
- Luminescent gauge face for easy reading in low light.

Depth Gauge Wrist

The Aqualung **Depth Gauge**, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

704034	DEPTH GAUGE WRIST,200'
704035	DEPTH GAUGE WRIST, 60M

Technical Features

- High fidelity depth scale provides easier reading at shallow depths.
 - On the wrist mount version the strap is designed to fit a variety of wrist sizes and wet/drysuit meters.
- Maximum depth indicator.
 - Luminescent gauge face for easy reading in low light.
 - Available in imperial or metric.

Transmitter

Aqualung's **Transmitters**, used in conjunction with a compatible wrist computers, allow you to monitor current pressure and gas time remaining without a stiff high pressure hose, while providing a more streamlined profile.

704020	TRANSMITTER, BK, REV2
704021	TRANSMITTER BK O2 CLEAN REV2

Technical Features

- Hoseless Gas Pressure Transmission for the i470TC, i750TC, i770R.
 - Once set, the transmitter is permanently paired and will not accidentally pair with other computers.
- Battery is user changeable and commercially available.
 - Nitrox compatible up to 40%.

See the world clearly with a new mask from Aqualung. Our technologically advanced masks suit every diver's needs and unique face shape.

Frameless technology provides panoramic views while dual-lens masks provide the option for easy, snap-in lenses.

Our emphasis on innovative design and our use of quality materials in our snorkels delivers comfort and fit your need to breath easy and feel confident on your dive.

Mask & snorkels[®]

Our Mask Technologies.

ADVANCED FIT TECHNOLOGY
Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

PRESSURE REDUCTION ZONE
Each mask is reinforced for stability and pressure points are reduced to maximize comfort and eliminate leaks.

FRAMELESS TECHNOLOGY
By eliminating the frame, the silicone is sealed directly to the lens, creating a compact and close-fitting design for optimal vision.

CARDANIC JOINT BUCKLES
Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

QUICK RELEASE BUCKLES
Even thick gloves won't get in the way of this one-touch adjustment system with buckles attached directly to the silicone skirt for added stability of the mask on the face.

NEW LENS QUICK RELEASE SYSTEM
Remove and replace lenses safely and in a quick snap with our special locking system and included tool.

UNIVERSAL ADVANCED SILICONE SKIRT
Our advanced technology and wrap-around geometrical shape made of crystal-clear, soft silicone provides the perfect fit for the widest variety of face shapes and sizes.

Technical Features

CARDANIC JOINT BUCKLES
Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

ADVANCED FIT TECHNOLOGY
Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

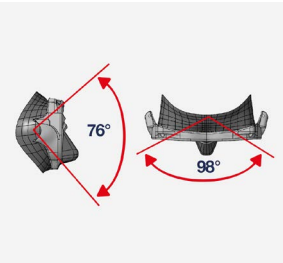

Teknika

Superior strength and rugged durability, this mask was built to exceed technical diving needs for long and deep dives. The dual lenses extend vertically to give you a better view of your own equipment and an opaque skirt reduces eye fatigue by blocking glare.

- 701026 BL BLCLR
- 701026 WH WHCLR
- 701026 BK BKCLR

Technical Features

CARDANIC JOINT BUCKLES
Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

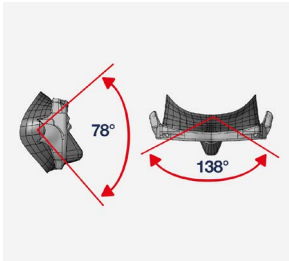

Sphera X

Our number one seller for freediving, the **Sphera X** is our lowest volume mask. It offers a panoramic view of your surroundings, premium silicone for the ultimate fit, and an EVA zippered case to reduce waste and protect the Plexisol lenses which are embedded with anti-fog properties. Dive without limits with the **Sphera X**.

Technical Features

ADVANCED FIT TECHNOLOGY
Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

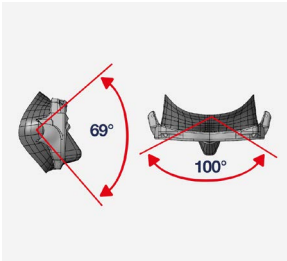

Look

The **Look** mask is a rugged, classically styled two-lens mask, while the frame and skirt are designed to fit a wide range of facial types. The **Look** skirt has been updated with the Advanced Fit Technology (AFT), which uses bands of textured silicone around the edge of the skirt resulting in a superior seal against the face.

Technical Features

Zephyr Flex

- 701510 HLBK
- 701510 BLBK
- 701510 BKBK

Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.

Impulse Classic Flex

- 701509 BKBK
- 701509 BLBK

Technical Features

- Keeps Water Out, the Impulse has two valves: if a wave breaks over the snorkel, the upper valve directs most of the water out before it reaches the mouthpiece. But if water does get past the first valve, it will drain out through the lower valve.
- Clears Easily, in the unlikely event that you would need to clear the reservoir below the mouthpiece, all it takes is a gentle puff of breath.
- The flex section allows for easy positioning and will drop away when not in use.

Air Dry

- 701511 HLCL
- 701511 NVBK
- 701511 BKCL

Technical Features

- Vent system over the tube reduces water splash-in.
- Flexothane tube is supple yet resistant.
- Comfo-bite silicone mouthpiece.
- Lower reservoir with two purge valves.

Impulse Classic

- 701505 BKBK
- 701505 BLBK

Technical Features

- Keeps Water Out, the Impulse has two valves: if a wave breaks over the snorkel, the upper valve directs most of the water out before it reaches the mouthpiece. But if water does get past the first valve, it will drain out through the lower valve.
- Clears Easily, in the unlikely event that you would need to clear the reservoir below the mouthpiece, all it takes is a gentle puff of breath.
- Eliminate jaw fatigue, our patented comfo-bite mouthpiece does not necessitate clenching your teeth, reducing fatigue, even after hours of adventure. Mouthpieces are replaceable. Available in two mouth sizes.

From full-foot to open-heel, your next pair of fins from Aqualung are waiting. Our fins are technology-packed to provide the ultimate in durability, control, and performance.

Comfort is key and ensured by our ergonomic features such as the mid-foot pivot point or customizable options such as our three choices of heel straps. Kick confidently with fins from Aqualung.

s
u
r
f

Our Fin Technologies.

MID FOOT PIVOT POINT (PATENT)
The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

CHANNEL STRUCTURE
Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

WAVE RIB TECHNOLOGY
Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

HYDRO POWER VENT
Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

Wave Rib

The elastomer rubber sections of the side ribs work together with the wave-shaped structures, accumulating (loading) the energy

of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick.

Straps & Buckles System

Our buckles and straps are fitted to the fin using a mushroom fitting, this aids the buckle in both being fully secure while still being able to rotate in all directions no matter what force

is applied. The straps used are varied from our Silicone Bungee to stainless steel springs to our made in house polymer straps.

Fins

AQUA LUNG

Phazer

A fin that works for you, not against you that's the **Phazer**. Optimizing efficiency with every kick, this fin adapts to each user from beginner to professional to maximize power and minimize effort. The **Phazer** uses a tri-material construction and advanced water channel system to optimize energy with every kick. Experience the revolutionary design today.

Technical Features

WAVE RIB TECHNOLOGY
Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

HYDRO POWER VENT
Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

Storm Max

Take your kicking power to the max with the **Storm Max** fin. It's everything a serious diver could want in an open heel fin with extended durability from its single-material design. The strong blade provides perfect propulsion with minimal effort for your best dive ever.

Technical Features

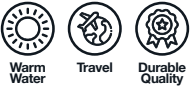

CHANNEL STRUCTURE
Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

HYDRO POWER VENT
Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

*suited for special boots

Storm

The **Storm** is a great all-around fin ideal for travel. Produced using Monprene, a single material construction gives both durability and strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for adjustments. Available for juniors and adults they can be worn with light boots or barefoot.

Technical Features

CHANNEL STRUCTURE
Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

Stratos 3

The best all-around full-foot fin for warm water. And it's so durable, it passed every anti-shock and stress test we subjected it to! But **Stratos 3** doesn't compromise on price or comfort: it's lightweight and affordable. The four-channel structure forces water to flow along the blade for heightened swim performance.

Wind

A full-pocket, entry-level fin that's ideal for your next scuba or snorkeling adventure. Lightweight yet robust, compact yet comfortable, this fin is ideal for travel. Enjoy the ergonomic foot pocket designed for the anatomy of the foot. This fin features a rigid sole for optimal foot protection and smooth power transition to the blade.

Technical Features

• **FULL-POCKET DESIGN**

High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water. Foot pocket is made of soft material for comfort.

• **STABLE FIT**

Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you're less likely to lose your fin or waste energy from your foot moving inside the pocket.

• **RESPONSIVE, DUAL-MATERIAL CONSTRUCTION**

Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin.

• **RIGID SOLE**

The rigid sole offers optimal foot protection and smooth power transition to the blade.

Aqualung has the modern wetsuits to suit every diver's preference and needs. Innovative technologies such as water-based glues and liquid fusion seams offer superior performance in every detail. Experience the warmth, comfort, and style of Aqualung wetsuits.

Wetsuits®

Our Wetsuit Technologies.

LIQUID FUSION
Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.

WATER BASED GLUE (AQUA A)
Eco-friendly, water-based glues replace volatile solutions used in other bonding agents.

POWERTEX KNEEPADS
Durable Powertex kneepads provide protection for high-abrasion areas while maintaining superior flexibility.

EMBOSSED TECHNOLOGY
Innovative connection system technology on jacket and pants enhances water seal, keeping the suit securely in place and you warmer for longer.

SUPER STRETCH
An innovative neoprene used in our premium wetsuits that has 3x the stretch of standard neoprene.

WHICH DIVE SUIT IS FOR ME ?

DRYSUIT

A drysuit keeps the diver dry. Thermal protection comes from what you wear underneath, or the dry suit itself depending on its material, in addition to an adjustable layer of air.

Membrane

Trilaminate suits

Front dry zipper + zipper cover

ALASKAN

GLOVES (recommended)

BOOTS (recommended)

HOODS INCLUDED

Compressed wetsuit

Yamamoto Neoprene

Back zip dry zipper

BLIZZARD Slim Fit

SEMI-DRYSUIT

Semi dry-suits have ankle, wrist and neck seals designed to reduce the flushing effect of water. This is less when compared to how much water can flush through a wetsuit. The effect of less 'flushing' of water means that less cold water enters.

Super stretch Neoprene (petroleum free) for maximum comfort and freedom of movement

Back zip dry zipper

ICELAND

GLOVES (recommended)

BOOTS (recommended)

HOODS INCLUDED

FULL SUIT/2 PIECES

Wetsuits, available in full or two-piece designs, provide thermal insulation by trapping a thin layer of water against the skin. The varying thickness of the material caters to different water temperatures. Full suits cover the diver from neck to wrist and ankle, and two-piece suits offer easier donning and doffing along with enhanced comfort.

Super stretch Neoprene (petroleum free) for maximum comfort and freedom of movement

Aqualung is committed to using environmentally **friendly materials** and processes whenever possible to help **reduce our carbon footprint.**

**SUSTAINABLE,
COMFORT, QUALITY
AND PERFORMANCE.**

Our range of rashguards offers optimum protection in and out of the water, to protect against the sun's rays and harsh and violent reverberations.

Comfort, respect for the environment and UV protection are the priorities.

Our rashguards use high-performance fabrics made from recycled plastic waste including bottles.

rashguards

LAMINATION
Water-based Glue
The laminating glue is water-based hence eliminating solvent volatile compounds.

FABRICS
Dope-Dyed Yarn
Dope-dyeing infuses dye pigments into molten plastic solution to produce yarns without dyeing process. This saves tremendous amounts of water while reducing energy consumption and water pollution.

**NEOPRENE
RUBBER FOAM**
Eco Carbon Black
Carbon black, one of the key ingredients of neoprene, can now be pyrolyzed made from scrap rubber tires. This significantly reduces energy consumption and reduces CO₂ emission by 200g per wetsuit.

Limestone
We use earth mined limestone to replace petrochemicals in our neoprene. It comes from nature and has less environmental impact.

wetsuits

Iceland

Chosen by instructors and dive teams all over the world, the **Iceland** is our most advanced and semi-dry yet. Made for durability and performance, outer materials stand up to anything you put this suit through while inner materials remain soft for all-dive comfort. Experience unparalleled warmth, exceptional movement, and flexibility like you’ve never felt before.

Rashguard

Made from polyester sourced from 100% recycled bottles, Aqualung's **rashguards** are designed to be worn both in and out of the water. Our rashguards protect against sun exposure and abrasions and can be used as an extra layer under your wetsuit. Aqualung rashguards are offered in a slim fit style for a traditional athletic cut or a loose fit style to accommodate all shapes and styles.

Alaskan

The **Alaskan** is our latest design in trilaminate drysuits. It features a telescopic torso and front zipper that allow the diver to equip himself. The neck and wrist seals are produced in latex and boots have reinforced soles for increased durability.

S	M	ML	L	XL	2XL
702411 BKBKS	702411 BKBKM	702411 BKBKML	702411 BKBKL	702411 BKBKXL	702411 BKBKXXL

Technical Features

- Telescoping torso for ease of donning.
 - Adjustable crotch strap and suspenders secure suit in place.
 - Latex wrist & neck seals keep water out.
- Spacious pockets with attachment loops.
 - Durable material overlays in seat and knees for longer life in high-wear areas.

Blizzard Slim Fit

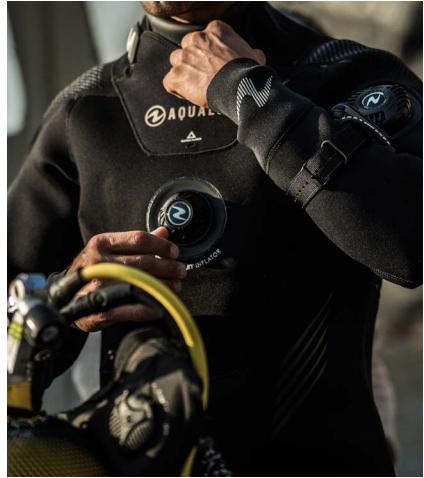

The **Blizzard Slim Fit** dry suit is Aqualung's ideal entry-level dry suit. It comes with a high level of quality matched by equally good looks. The re-designed **Blizzard Slim Fit** now includes a new cargo pocket with a large opening and an integrated mesh drain panel. The dry suit is constructed with compressed 4mm neoprene to limit the extra buoyancy and keep its thickness even at depth.

- Technical Features**

 - Environmentally friendly PAH (Polycyclic Aromatic Hydrocarbons) free neoprene.
 - Durable Small Diamond coating on shoulders and arms increases durability.
 - Watertight taped interior seams for watertight integrity.
- Highly visible ultra-reflective safety tape.
 - Abrasion Resistant Powertex reinforcement panels.
 - Wide opening cargo pocket with mesh drainage panel for extra storage.

Heat Gloves

Our heat gloves are made using a closed-cell neoprene with gas-filled micro bubbles for outstanding warmth. Palm and finger areas feature Titanium Slick Skin, which dries faster and keeps hands warmer than traditional materials. Backed by Aqualung tech, our 5mm **Heat Gloves** are the solution to keeping water out and warmth in.

XS	S	M	L	XL
702528 BKBKXS	702528 BKBKS	702528 BKBKM	702528 BKBKL	702528 BKBKXL

- Technical Features**

 - Sealed seams provide longevity and superior water tightness.
 - Lined with Glideskin for ultimate comfort, wet or dry.
- Choice of 5mm or 3mm neoprene in 5-finger design for desired cold water insulation.
 - 6mm neoprene in 3-finger Heat Mitt design provides exceptional cold water insulation.

EVO4 Boot

The **EVO4 Boot** was designed in conjunction with the military for use on wet, slippery decks, finning for swimming and running on wet rocky shores. The **EVO4** represents an evolution of design over many years at Aqualung. We've improved durability and comfort to give you a sturdy, supportive boot that withstands rough conditions, cold waters, and plenty of action.

- Technical Features
- 7mm neoprene.
 - Customizable face seal thanks to glide skin to fit any face.
 - Glide skin face seal for comfortable fit and minimizes cold water to get in (4mm depending on hood thickness).
 - Bubbles vents to evacuate bubbles generated by regulator.

Outside

Inside

Liquid Grip

The **Liquid Grip** neoprene diving gloves deliver optimal comfort, warmth and functionality. Liquid rubber seams help the gloves last longer with reduced water transfer and thread fraying. Patented X-tend cuffs provide a durable edge without reducing stretch.

UNISEX		XS	S	M	L	XL
5MM	702527 BKBLS	702527 BKBLS	702527 BKBLS	702527 BKBLS	702527 BKBLS	702527 BKBLS

• Adjustable hook-and-loop wrist closure.

• 2mm neoprene.

SuperLow

The ideal warm water dive boot, **SuperLow** Boots are made from as few seams as possible, strategically placed away from the foot’s widest areas to decrease chafing. Less seams doesn’t mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

- Technical Features
- 3mm neoprene.
 - Thick treaded sole to protect the feet and specific pattern for slip-resistance.
 - Maximum comfort thanks to ISO the Ergo shaped footbed and outsole to match the profile of the foot.

SuperZip

Keep your feet warm and secure. The **SuperZip** Boots protect your feet with a tight seal that reduces water transfer to keep them warmer for longer. Meanwhile, the cuff binding is made from elasti to provide a more comfortable fit. **Superzip** Boots are strengthened with extra padding in the sole, toe cap, and heel cap to keep them going strong dive after dive.

 - Thick treaded sole to protect the feet and specific pattern for slip-resistance.
 - Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot.

Ergo Sock

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

Hooded UnderVest

With an ergonomic shape and integrated aluminum coating, the hooded undervest is the most advanced undervest available from Aqualung. The aluminum coating acts like a shield and reflects your own body heat back to you, keeping you warm during cold water dives. Enjoy a perfect collar seal, created when the glide skin seals with the internal skin of your wetsuit, keeping water exchange to a minimum.

 - 2.5mm superstretch neoprene (petroleum free) with aluminium coating to increase warmth.
 - Collar in Glide skin for perfect sealing.
- Face seal to limit water entrance and bubble vents to remove trapped bubbles.

We at Aqualung have designed, tweaked, tested, documented, developed and perfected our collections of premium scuba gear bags.

Aqualung offers the world's most trusted scuba gear bags with a history of unmatched attention to durability, quality, and function.

Bags

Explorer Bag Range

Enjoy hassle-free travel and convenient transport of your scuba gear, letting you focus on the excitement of your dives ahead. Withstand the rigors of travel and keep equipment organized, protected, and easily accessible with the Explorer bag series. Featuring three versatile bags made from robust, highly resistant water-repellent fabric, the Explorer series meets all your needs, keeping dive equipment in optimal condition and making travelling easy with heavy or bulky equipment.

Explorer 120L

Explorer 90L

Explorer 45L

Explorer 120L

Transporting heavy and bulky equipment with ease, the **Explorer Max 120L** is the perfect choice to fit both scuba gear and personal belongings, keeping it organized, protected and ready for your next adventure. Travel anywhere with this rugged bag that features a telescopic handle and robust wheels or handles for carrying over rougher ground. Dedicated fin pockets and internal compartments make equipment quick and easy to pack, store, and find.

705017 NVBK

Technical Features

- Tough water-repellent PVC outer protects contents and retains high-quality appearance and anti-corrosion zip.
- Fits all your scuba equipment and more in 120 litre capacity.
- Conveniently separates scuba equipment from personal belongings.
- Avoids surcharges by meeting dimensions and capacity for hold luggage.
- Easy to pack and find kit with internal compartments and dedicated fin pocket.
- Easy to move with telescopic handle and robust wheels.
- 80x41x37cm / 4.2 Kg 31.5x16x14.5 In / 9.25 Lbs
- Interchangeables wheels for repair.

Explorer 90L

Conveniently transport your scuba equipment with the perfect bag for an active lifestyle. The **Explorer 90L** keeps scuba gear safe, organized, and protected while on the move. Make your life easy by packing, storing and finding kit in an instant with this stylish and functional bag. Easy to manoeuvre with telescopic handle and sturdy wheels, this is an essential bag for your dive adventures.

705015 NVBK

Technical Features

- Tough water-repellent PVC outer protects contents and retains high-quality appearance.
- Ease of packing with dedicated fin and exterior accessory pockets.
- Protects scuba gear in transit.
- Travel anywhere with telescopic handle and robust wheels or fabric handles for lifting.
- 71x41x30cm / 3.9 Kg 28x16x11.9 In / 8.5 Lbs
- Interchangeables wheels for repair.

Explorer 45L

Perfectly proportioned for carry-on luggage, the **Explorer 45L** lets you keep essential scuba gear close when travelling. Padded adjustable shoulder straps make carrying easy, comfortable, and hassle-free. Keeping your equipment safe, this ideal bag for multi-day dive trips has 45 litre capacity and two exterior pockets for convenient storage. Tough, durable water-repellent fabric protects your gear and keeps the Explorer 45L looking great for longer.

705016 NVBK

Technical Features

- Tough water-repellent PVC outer protects contents and retains high-quality appearance.
- Perfect for carry-on luggage, lightweight with 45L capacity.
- Convenient full zip for easy access to equipment.
- Additional storage with easily accessible exterior pockets.
- Size and capacity fit with airplane carry-on bag regulations.
- Daisy chain to attach all your accessories.
- 55x26x28cm / 980 g 21.6x10.3x11 In / 2.62 Lbs

Explorer Collection II : Duffel Pack

With its carry-on dimensions, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any fin. Part of the complete line of Explorer II bags to get you outfitted for dive travel.

705011TQBK

Technical Features

- Durable 1680D polyester and corrosion- resistant zippers.
- Protective internal padding, protective V-diamond base and six corner guards.
- Mesh drying pocket.
- External straps for fin attachment.
- Size 24x13x9" (32x60x30cm).
- Weight 3.5Lbs (1.5 Kg).
- Volume: 57L.

Adventurer Mesh

Need a bag to store your gear between dive trips? Tired of wheeling your fancy travel luggage full of dive gear to the beach? Have an unorganized rental locker? The Aqualung **Adventurer Mesh** Bag is the perfect solution. Whether it's used to differentiate kit sizes in a dive locker, brought on a trip to leave your luggage in the hotel or just to keep your gear packed neatly away, the **Adventurer Mesh** Bag is up to the task.

705009 BKBK
705009 BLBK

Technical Features

- Soft Polyester mesh body folds down to the size of a sweatshirt for easy packing and travel.
- Mesh body allows to rinse your whole kit and let it dry while on the go.
- Corrosion resistant zippers.
- Removable padded shoulder strap.
- Size: 34 x 76cm.
- Weight 1,25lbs (0,6kg).
- Volume: 70L.

Explorer II : Regulator Bag

The Aqualung **Explorer II Regulator Bag** is the perfect bag for protecting your regulators. The combination of foam and PE padded walls protect your delicate gear while the round shape minimizes hose kinks. The compact design packs flat and pairs with all the bags in the **Explorer II** Collection.

705012 BKBK

Technical Features

- Corosion resistant zipper.
