Aqualung Buyer’s Guide 2027

Our Fin Technologies.

MID FOOT PIVOT POINT *(PATENT)*
The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

WAVE RIB TECHNOLOGY
Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

HYDRO POWER VENT
Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

CHANNEL STRUCTURE
Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

POWER FLEX ZONE
A cut out section of the blade prevents the kicking effort from being loaded directly on the foot, transferring the workload to the leg.

Wave Rib

The elastomer rubber sections of the side ribs work together with the wave-shaped structures, accumulating (loading) the energy of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick.

Straps & Buckles System

Our buckles and straps are fitted to the fin using a mushroom fitting, this aids the buckle in both being fully secure while still being able to rotate in all directions no matter what force is applied. The straps used are varied from our Silicone Bungee to stainless steel springs to our made in house polymer straps.

AQUA LUNG

Stratos 3

Barefoot · Warm Water

The best all-around full-foot fin for warm water. And it's so durable, it passed every anti-shock and stress test we subjected it to! But **Stratos 3** doesn't compromise on price or comfort: it's lightweight and affordable. The four-channel structure forces water to flow along the blade for heightened swim performance.

Technical Features

- **FULL-POCKET DESIGN**
  High comfort, no booties required. Full-pocket fins give you increased perception of your kick's effect on the water. Foot pocket is made of soft material for comfort.
- **STABLE FIT**
  Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you're less likely to lose your fin or waste energy from your foot moving inside the pocket.
- **RESPONSIVE, DUAL-MATERIAL CONSTRUCTION**
  Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin.
- **RIGID SOLE**
  The rigid sole offers optimal foot protection and smooth power transition to the blade.

Aqualung Buyer's Guide 2027

Our Wetsuit Technologies.

LIQUID FUSION
Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.

POWERTEX KNEEPADS
Durable Powertex kneepads provide protection for high-abrasion areas while maintaining superior flexibility.

SUPER STRETCH
An innovative neoprene used in our premium wetsuits that has 3x the stretch of standard neoprene.

WATER BASED GLUE *(AQUA A)*
Eco-friendly, water-based glues replace volatile solutions used in other bonding agents.

EMBOSSED TECHNOLOGY
Innovative connection system technology on jacket and pants enhances water seal, keeping the suit securely in place and you warmer for longer.

WHICH DIVE SUIT IS FOR ME ?

	Thickness	Material	Zip system	My choice	Accessories
SEMI-DRYSUIT  **Semi dry-suits have ankle, wrist and neck seals designed** to reduce the flushing effect of water. This is less when compared to how much water can flush through a wetsuit. The effect of less 'flushing' of water means that **less cold water enters.**	7mm	**Super stretch Neoprene** (petroleum free) for maximum comfort and freedoom of movement	**Back zip** dry zipper	**ICELAND**	GLOVES (recommended) BOOTS (recommended) **HOODS INCLUDED**
FULL SUIT/2 PIECES  **Wetsuits,** available in **full or two-piece designs,** provide thermal insulation by trapping a thin layer of water against the skin. The varying thickness of the material caters to different water temperatures. **Full suits** cover the diver from neck to wrist and ankle, and **two-piece suits** offer easier donning and doffing along with enhanced comfort.	3mm 5mm 7mm 8mm	**Super stretch Neoprene** (petroleum free) for maximum comfort and freedoom of movement	**Back zip** **Front zip** **Chest zip**	**FITFLEX** **HYDROFLEX** **AQUAFLEX** **DYNAFLEX** **SOLAFLEX**	GLOVES* BOOTS* HOODS*
SHORTY  **Shorty wetsuits end just above the elbows and knees.** They typically feature thinner neoprene, and keep your core warm while allowing free movement of arms and legs.	3mm	**Super stretch Neoprene** (petroleum free) for maximum comfort and freedoom of movement	**Back zip** **Front zip**	**HYDROFLEX**	BOOTS (optional)

* Optional on 3/4/5mm and recommanded on 7/8mm

Aqualung is committed to using environmentally **friendly materials** and processes whenever possible to help **reduce our carbon footprint.**

SUSTAINABLE, COMFORT, QUALITY AND PERFORMANCE.

Our range of rashguards offers optimum protection in and out of the water, to protect against the sun's rays and harsh and violent reverberations.

Comfort, respect for the environment and UV protection are the priorities.

Our rashguards use high-performance fabrics made from recycled plastic waste including bottles.

rashguards

wetsuits

LAMINATION

Water-based Glue

The laminating glue is water-based hence eliminating solvent volatile compounds.

FABRICS

Dope-Dyed Yarn

Dope-dyeing infuses dye pigments into molten plastic solution to produce yarns without dyeing process. This saves tremendous amounts of water while reducing energy consumption and water pollution.

NEOPRENE RUBBER FOAM

Eco Carbon Black

Carbon black, one of the key ingredients of neoprene, can now be pyrolyzed made from scrap rubber tires.
This significantly reduces energy consumption and reduces CO_2 emission by 200g per wetsuit.

Limestone

We use earth mined limestone to replace petrochemicals in our neoprene. It comes from nature and has less environmental impact.

COMMITMENT // SUSTAINABLE COMMITMENT // SUSTAINABLE COMMITMENT // SUSTAINABL

Iceland

Chosen by instructors and dive teams all over the world, the **Iceland** is our most advanced and semi-dry yet. Made for durability and performance, outer materials stand up to anything you put this suit through while inner materials remain soft for all-dive comfort. Experience unparalleled warmth, exceptional movement, and flexibility like you've never felt before.

Aqualung Buyer’s Guide 2027

Rashguard

Made from polyester sourced from 100% recycled bottles, Aqualung's **rashguards** are designed to be worn both in and out of the water. Our rashguards protect against sun exposure and abrasions and can be used as an extra layer under your wetsuit. Aqualung rashguards are offered in a slim fit style for a traditional athletic cut or a loose fit style to accommodate all shapes and styles.

702555 BKBKS	702555 BKBKM	702555 BKBKL	702555 BKBKXL	69,95 €

Technical Features

- 5mm ultra 4-way stretch neoprene and ultraspan outer fabric.
- Bubble vents to evacuate bubbles generated by regulator.
- Matching Dynaflex wetsuit design.
- D-ring to fasten the hood to the wetsuit.

HydroFlex Hood

Enhance your aquatic experience with the 3mm **Hydroflex** neoprene hood, adding essential warmth and customized comfort in the water.

UNISEX - 3MM

S	M	L	XL	UVP
702558 BKWHS	702558 BKWHM	702558 BKWHL	702558 BKWHXL	29,95 €

Technical Features

- 3mm stretch and durable neoprene.
- Matching hydroflex wetsuit.

Hooded UnderVest

With an ergonomic shape and integrated aluminum coating, the hooded undervest is the most advanced undersuit available from Aqualung. The aluminum coating acts like a shield and reflects your own body heat back to you, keeping you warm during cold water dives. Enjoy a perfect collar seal, created when the glide skin seals with the internal skin of your wetsuit, keeping water exchange to a minimum.

Aqualung Buyer’s Guide 2027

Liquid Grip

The **Liquid Grip** neoprene diving gloves deliver optimal comfort, warmth and functionality. Liquid rubber seams help the gloves last longer with reduced water transfer and thread fraying. Patented X-tend cuffs provide a durable edge without reducing stretch.

UNISEX

702518 BKBKXS	702518 BKBKS	702518 BKBKM	702518 BKBKL	702518 BKBKXL	74,95 €

Technical Features

- 4mm Seeflex Nylon II neoprene.
- Glued and taped seams.
- Dry gloves: Double skin wrist seals are completely watertight.

Heat Gloves

Our heat gloves are made using a closed-cell neoprene with gas-filled micro bubbles for outstanding warmth. Palm and finger areas feature Titanium Slick Skin, which dries faster and keeps hands warmer than traditional materials. Backed by Aqualung tech, our 5mm **Heat Gloves** are the solution to keeping water out and warmth in.

XS	S	M	L	XL
702528 BKBKXS	702528 BKBKS	702528 BKBKM	702528 BKBKL	702528 BKBKXL
				89,95 €

Technical Features

- Sealed seams provide longevity and superior water tightness.
- Lined with Glideskin for ultimate comfort, wet or dry.
- Choice of 5mm or 3mm neoprene in 5-finger design for desired cold water insulation.
- 6mm neoprene in 3-finger Heat Mitt design provides exceptional cold water insulation.

Thermocline K

These ultra-rugged, warm, and highly ergonomic gloves give you protection and range of motion without expending extra energy on grip. With ballistic-strength nylon fiber on the palms, they provide optimal abrasion protection in harsher conditions and during high-adrenaline activities.

UNISEX

	XS	S 68,95 €	M	L	XL	2XL
5MM		702540 BKRDS	702540 BKRDM	702540 BKRDL	702540 BKRDXL	702540 BKRDXXL

Technical Features

- 5mm neoprene.
- Palms, fingers and fingertip backs in durable ballistic-strength nylon for durability.
- Triple-glued and blind stitched seams.
- Adjustable cinch closure at the wrist.

Thermocline

You don't have to sacrifice range of motion for warmth with our **Thermocline** Glove, it's cut to mirror a gentle, natural flexion in the fingers to eliminate fatigue and make gripping easier. Choose from either 3mm or 5mm thicknesses to keep you warm.

AQUALUNG

SuperLow

The ideal warm water dive boot, **SuperLow** Boots are made with as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Fewer seams don't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

UNISEX - 3MM

- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot.
- Thick treaded sole to protect the feet and specific pattern for slip-resistance.

AQUALUNG

Ergo Sock

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

- Glued and blind-stitched seams prevent water entering.

EVO4 Boot

The **EVO4 Boot** was designed in conjunction with the military for use on wet, slippery decks, finning for swimming and running on wet rocky shores.
The **EVO4** represents an evolution of design over many years at Aqualung. We've improved durability and comfort to give you a sturdy, supportive boot that withstands rough conditions, cold waters, and plenty of action.

Adventurer Bag Range

Designed for divers who need a practical solution for transporting and storing their equipment, the Adventurer bag range combines modern style, durability, and sustainability in one innovative collection. Made from recycled materials and featuring a robust perforated construction, the Adventurer series provides excellent ventilation and drainage to keep wet or dry gear organized and ready for the next dive. Distinctive water-drop perforations create a unique technical look while maximizing airflow, offering a more durable alternative to traditional mesh dive bags.

Adventurer Duffle Bag (90L)

Adventurer Backpack (50L)

Adventurer Regulator bag (7L)

Adventurer **Duffle bag**

Recyled

MADE WITH 88% RECYCLED MATERIAL

Whether you're storing your gear between dive trips, organizing equipment in a dive locker, or carrying your kit to and from the dive site, the **Adventurer Duffle Bag** is built for the task. Made from 88% recycled materials, it features a unique perforated construction with distinctive water-drop openings that maximize airflow and drainage while preventing the snagging and tearing commonly associated with traditional mesh bags. Lightweight, rugged, and easy to pack, the Adventurer keeps your equipment organized, protected, and ready for your next underwater adventure.

■ 705097 NVBK **69,95 €**

Technical Features

- Durable 420 Recycled TPU and corrosion- resistant zippers.
- Removable shoulder strap with hooks for flexible carrying options.
- Convenient name card pocket designed to fit business cards.
- Drainage holes ensure fast drying by allowing water to escape easily.
- 84x33 cm / 910 g 33x12.9 In / 2.01 Lbs
- Volume: 90L

Adventurer **Backpack**

Recyled

MADE WITH 70% RECYCLED MATERIAL

Designed for divers on the move, the **Adventurer Backpack** combines smart functionality, modern styling, and sustainable construction. Made from 70% recycled materials, it features a durable perforated design with signature water-drop openings that maximize airflow and promote rapid drainage. External fin attachment clips securely hold a wide range of fins, while an internal zippered pocket keeps personal belongings safe and organized. An integrated name tag pocket allows for quick identification.

■ 705096 NVBK	99,95 €

Technical Features

- Durable 420 Recycled TPU.
- Padded shoulder strap with chest belt for extra support.
- Convenient name card pocket designed to fit business cards.
- Drainage holes ensure water to escape easily.
- Four side straps securely hold your fins in place for easy transport.
- Daisy chain loops provide multiple attachment points for your diving essentials.
- 35x60x23 cm / 940 g
  3.7x23.6x9 In / 2.07 Lbs
- Volume: 50L

Adventurer **Regulator bag**

Recyled

MADE WITH 60% RECYCLED MATERIAL

Protect your regulator set wherever your dive adventures take you. Made with 60% recycled materials, the **Adventurer Regulator Bag** combines sustainability with reliable gear protection. Foam and PE-padded walls cushion delicate equipment, while the rounded design helps prevent hose kinking and maintains proper hose routing during transport. Lightweight and compact, the bag folds flat for easy storage when not in use. A name tag pocket makes it easy to quickly identify your bag when traveling or gearing up alongside other divers.

■ 705095 NVBK	39,95 €
